INTRODUCTION

The Lok Sabha is composed of representatives of people chosen by direct election on the basis of Universal Adult Suffrage. The Constitution of India allows for a maximum of 550 members in the House, with 530 members representing the States and 20 representing the Union Territories. The 17th Lok Sabha was formed by the members elected in the 2019 Indian general election. Elections, all across India, were conducted in seven phases from 11 April 2019 to 19 May 2019 by the Election Commission of India. The Bhartiya Janata Party received 37.36% of the vote, the highest vote share by a political party since the 1989 general election, and won 303 seats, further increasing its substantial majority. In addition, the BJP-led National Democratic Alliance (NDA) won 353 seats.

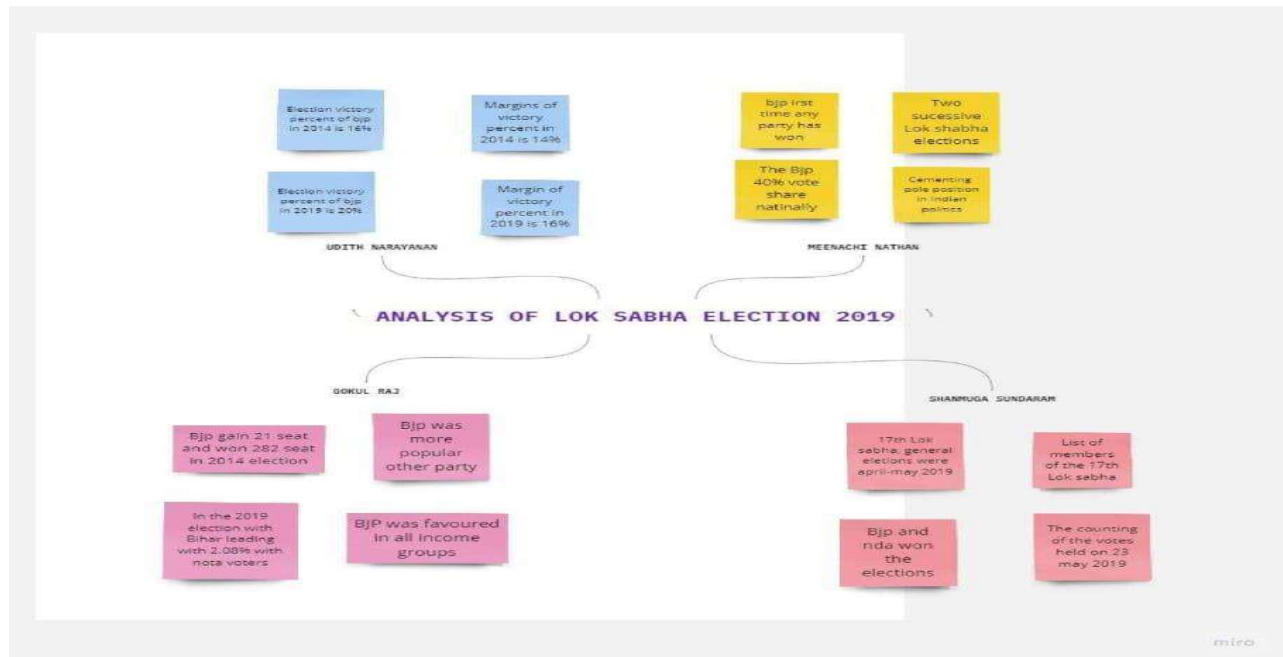

PROBLEM DEFINITION & DESIGN THINKING

EMPATHY MAP :

Definition: An empathy map is a collaborative visualization used to articulate what we know about a particular type of user. It externalizes knowledge about users in order to 1) create a shared understanding of user needs, and 2) aid in decision making. This article is a guide to empathy mapping and its uses.

BRAINSTORMING MAP

Brainstorming is a group creativity technique by which efforts are made to find a conclusion for a specific problem by gathering a list of ideas spontaneously contributed by its members. A group of people write ideas on sticky notes as part of a brainstorming

RESULT

DASHBOARD

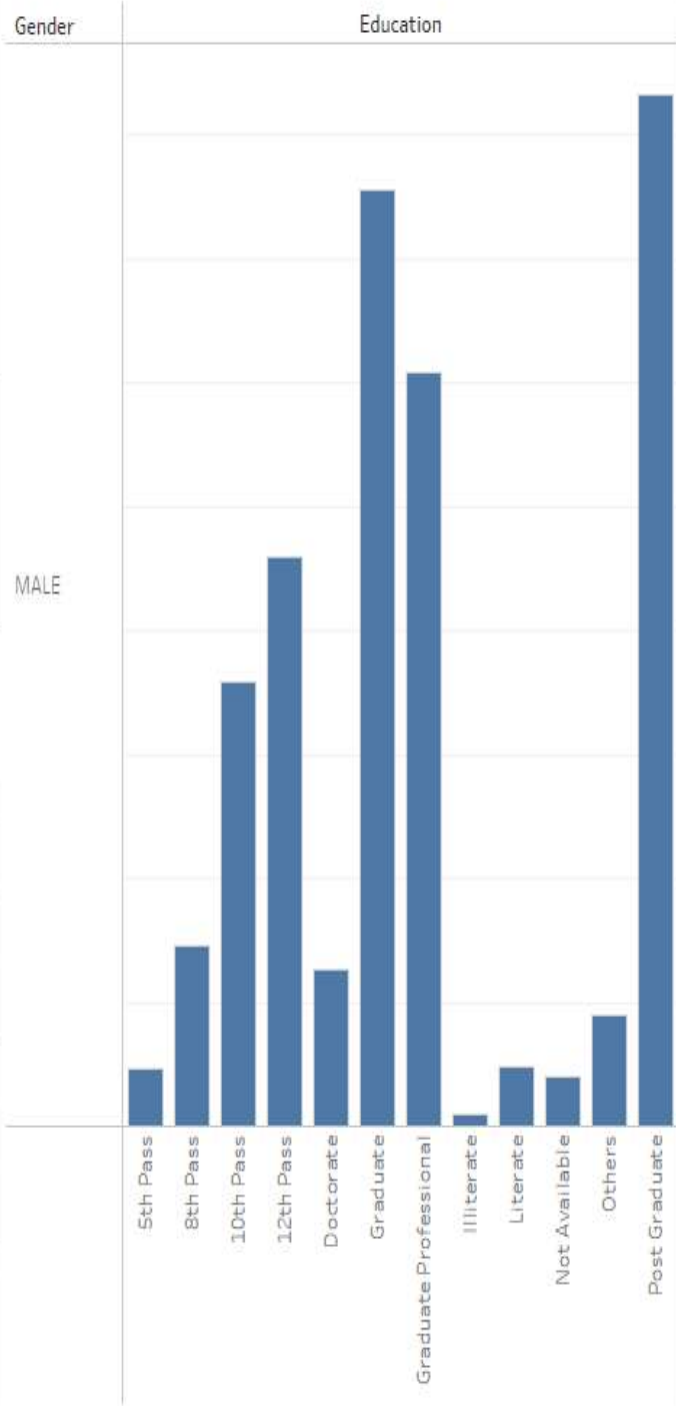

A dashboard is a graphical user interface (GUI) that displays information and data in an organized, easy-to-read format.

Dashboards are often used to provide real-time monitoring and analysis of data, and are typically designed for a specific purpose or use case. Dashboards can be used in a variety of settings, such as business, finance, manufacturing, healthcare, and many other industries. They can be used to track key performance indicators (KPIs), monitor performance metrics, and display data in the form of charts, graphs, and tables

STORY

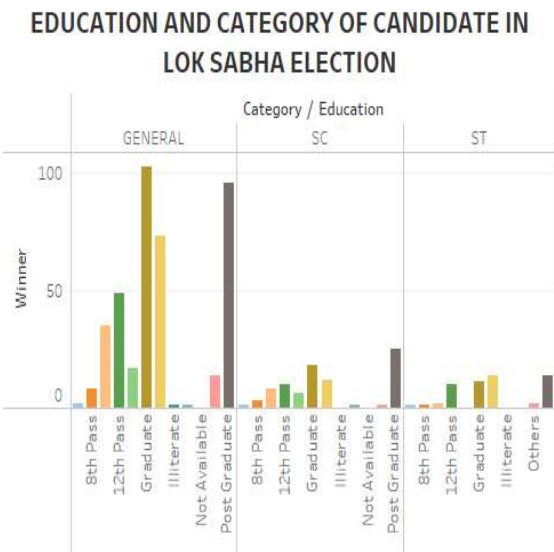

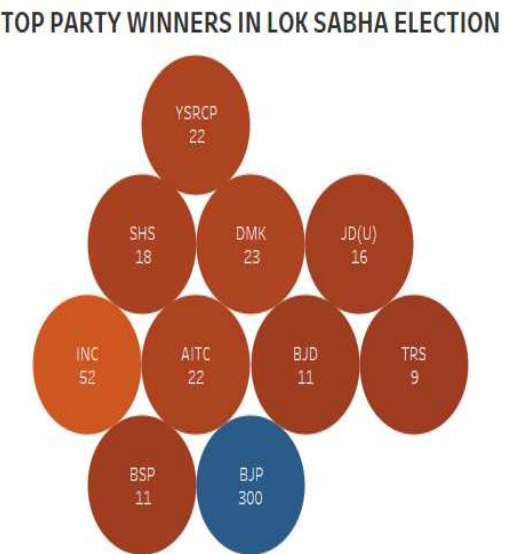

A data story is a way of presenting data and analysis in a narrative format, with the goal of making the information more engaging and easier to understand. A data story typically includes a clear introduction that sets the stage and explains the context for the data, a body that presents the data and analysis in a logical and systematic way, and a conclusion that summarizes the key findings and highlights their implications. Data stories can be told using a variety of mediums, such as reports, presentations, interactive visualizations, and videos

ADVANTAGES

The biggest logic in the favor of the simultaneous election is the saving of government money. If the country goes for One Nation One election it will saving of huge Government money. As per reports, a whopping Rs 60,000 crore was spent on the 2019 Lok Sabha elections. The amount includes what was spent by the political parties fighting the polls and the spending by the Election Commission of India (ECI) to hold the elections. The move might also lead to an increase in voter percentage and lesser corruption, besides saving time and energy.

DISADVANTAGES

It is observed that elections for state assemblies and Lok Sabha are fought on different issues. Regional parties target local issues while national parties target national issues. So there is a possibility that regional parties will not be able to raise the local issues strongly. Regional parties will not be able to compete with national parties in terms of election expenditure and election strategy. Assembly elections are closely associated with the local issues and local voters. Hence one time election will not be accepted by the regional parties.

At present almost all the regional parties are demanding to conduct elections through ballot papers. If elections are conducted in one time mode then the elections results will be declared very late.

APPLICATION

General elections were held in India in seven phases from 11 April to 19 May 2019 to elect the members of the 17th Lok Sabha. Votes were counted and the result was declared on 23 May.^{[1][2][3][4]} The election resulted in a landslide victory for the BJP which won 303 seats and formed the government.

Around 912 million people were eligible to vote, and voter turnout was over 67 percent – the highest ever, as well as the highest ever participation by women voters.^{[5][6][c]}

The Bharatiya Janata Party received 37.36% of the vote, the highest vote share by a political party since the 1989 general election, and won 303 seats, further increasing its substantial majority.^[8] In addition, the BJP-led National Democratic Alliance (NDA) won 353 seats.^[9] The BJP won 37.76%^[10] of votes, while the NDA's combined vote was 45% of the 603.7 million votes that were polled.^{[11][12]} The Indian National Congress won 52 seats, failing to get 10% of the seats needed to claim the post of Leader of the Opposition.^[13] In addition, the Congress-led United Progressive Alliance (UPA) won 91 seats, while other parties won 98 seats.^[14]

Legislative assembly elections in the states of Andhra Pradesh, Arunachal Pradesh, Odisha and Sikkim were held simultaneously with the general election,^{[15][16]} as well as by-elections of twenty-two seats of the Tamil Nadu Legislative Assembly.^[17]

CONCLUSION

In This Project (political juggernauts : A Quotative Analysis Of Candidates in the Lok Sabha elections –2019),I have explained about the topic by providing full details on it this project emphasizes on main idea

related to the topic .I took the ideas researched about this topics from the website some book which are the mentioned in the bibliography.

FUTURE SCOPE

OVER ALL ELECTIONS were held in india in seven phases from 11 April to 19 May 2019 to elect the members of the lok sabha 17th election. Votes were counted and the result was declared on 23 May. The election resulted in a landslide victory for the BJP which won 303 seats and formed the government.

Around 912 million people were eligible to vote, and voter turnout was over 67 percent – the highest ever, as well as the highest ever participation by women voters.

The Bharatiya Janata party 37.36% of the vote, the highest vote share by a political party since the 1989 general election, and won 303 seats, further increasing its substantial majority.^[8] In addition, the BJP-led National Democratic Alliance (NDA) won 353 seats.^[9] The BJP won 37.76%^[10] of votes, while the NDA's combined vote was 45% of the 603.7 million votes that were polled.^{[11][12]} The Indian National Congress won 52 seats, failing to get 10% of the seats needed to claim the post of Leader of the Opposition.^[13] In addition, the Congress-led United Progressive Alliance (UPA) won 91 seats, while other parties won 98 seats.^[14]

Legislative assembly elections in the states of Andhra Pradesh, Arunachal Pradesh, Odisha and Sikkim were held simultaneously with the general election,^{[15][16]} as well as by-elections of twenty-two seats of the Tamil Nadu Legislative Assembly.^[17]
